PROJECTS

Good Bread Subscription Service

[Frontend Repo](#) | [Backend Repo](#) | [Deployed Application](#)

- Built a web application that allows users to subscribe for weekly bread deliveries.
- Developed an ecommerce section where users can preorder baked goods.

Find My Market

[Python Repo](#) | [Ruby Repo](#)

- Built an application to display all farmers markets near a user's location.
- Created a standalone API in Ruby, designed to replace the USDA farmers' markets.
- Developed features in Python to favorite markets and search by location, time, and products.

Community Compose

[Github Repo](#) | [Deployed Application](#)

- Built an in browser music editing application that connected musicians by city.
- Developed a messaging feature that allows musicians to communicate in app.

Sweater Weather

[Github Repo](#)

- Built a road trip API that provided a weather forecast during the trip and at the time of arrival to a provided destination.
- Used Google Maps API to display the total travel time.

EXPERIENCE

Method Roasters

Co-Founder & Head Roaster | 2012 - 2016

- Launched a boutique coffee roasting business that served 30 restaurants and shops in Denver
- Led the roasting process, creating ~500 pounds of coffee per week for our customers.
- Ran quality assurance and operations for the business, to test and maintain product integrity.
- Built strong client relationships to retain and gain new customers.
- Researched industry trends to stay competitive in a growing market.

Lula Rose General Store

Barista | 2016 - 2019

- Drove sales by providing excellent customer service.
- Built an inclusive community of regular patrons.
- Collaborated with the owner to develop new recipes.
